**House Targaryen**  
Blood of the Dragon  
A brief history of the Line of the Dragonkings in Westeros

- Daeron the Good negotiated the peaceful transition of Dome into the Seven Kingdoms via his and his sisters' marriages to House Martell.
- Aerys I inherited the Iron Throne after his father and elder brother's sons all died in the great Spring Sickness.
- Maekar I presided over a long seven-year summer that some had falsely thought to be the Great Summer come at last.

**Aegon I** (The Conqueror) and **Rhaenyra** (The First of Her Name) had three children: **Maegor I**, **Aerys I**, and **Alysanne**.

**Aegon I** and **Rhaenyra** were the first Targaryen King and Queen. Aegon I inherited the Iron Throne despite the fact that Viserys had named his daughter Rhaenyra the heir. This conflict is the cause of a great war called the **Dance of the Dragons**.

King Viserys had three children by his first queen: two sons who died in infancy and a daughter, Rhaenyra. Lacking a son to succeed him, Viserys named Rhaenyra to be his heir, including her in discussions of the affairs of state, and participating in the small council. As a result, Rhaenyra was very popular amongst the nobles.

When his first queen died, Viserys remarried and produced several children, the eldest son named Aegon. Despite now having a son, Viserys still intended for Rhaenyra to succeed him and even indicated such in his will. However, upon Viserys' death, Lord Commander of the Kingsguard, Ser Criston Cole, defied the king's will, and crowned Prince Aegon instead. Later, Ser Criston would come to be known as "the Kingmaker".

Rhaenyra with the support of the nobles who knew and honored Viserys' wishes, and Aegon with the support of those houses who did not want a female ruler, engaged in a great armed conflict that involved the entire Seven Kingdoms. The civil war lasted for over a year while the Targaryens, the realm and the Kingsguard fought amongst themselves. By the end of the war, most of the Targaryen dragons that had been ridden into battle were dead.

Aegon ultimately won the war and Rhaenyra was declared a traitor by her brother. She was sentenced to death and eaten alive by Aegon's dragon. Ironically, King Aegon II died shortly after the war without having fathered an heir and so the crown passed to Rhaenyra's son.

Aegon the Unworthy sired numerous bastards and broke the kingdom into turmoil when he legitimized them all on his deathbed. The civil war caused by Aegon IV's bastards was known as the **Blackfyre Rebellion**.

On his deathbed, King Aegon IV legitimized all of his numerous bastard children, most notably several bastards of noble birth. One of these, **Daemon Blackfyre**, was a popular warrior famed for having been girded the Targaryen sword of kings, **Blackfyre**, over Aegon's trueborn heir.

After Aegon's legitimate son Daeron assumed the throne, he began peace negotiations with Dome and married a Martell princess, which caused his court to adopt a Dornish flavor. This bred unrest amongst some of the nobles who were uneasy with the change. After nearly a decade of mounting tensions, the anti-Dornish sentiment combined with Daemon's ownership of Blackfyre caused several houses to support Daemon's challenge for the Iron Throne. The Kingdom was once again pitted against itself in civil war. Daemon Blackfyre was joined in battle by all of his bastard brothers except for Brynden "Bloodraven" Rivers who remained loyal to King Daeron.

The rebellion lasted approximately one year, culminating at the **Battle of the Redgrass Field**. Bittersteel and Blackfyre led a strong force against a royalist army commanded by Prince Maekar. Just as it seemed that the rebel force was about to overtake the loyalists, Prince Baelor and Bloodraven arrived with a second force of archers and Dornishmen that were able to surprise and decimate the rebel force. Bloodraven personally fired the arrow that killed Daemon Blackfyre and two of his sons, earning him the nicknames "Kinslayer".

With Daemon Blackfyre dead, the rebellion was essentially at an end. Bittersteel escaped the battle with the Targaryen sword **Blackfyre** and fled with his remaining nephews to the **Free Cities**. Daemon's descendants continued to weakly threaten the Iron Throne for several generations until finally the last of the Blackfyres line, **Maelys the Monstrous**, was killed during the **War of the Ninepenny Kings**.

Aegon the Unlikely was the fourth son of a fourth son who had never expected to be King.

Jaehaerys II was kind and clever man who died young.

Aerys the Mad King committed countless atrocities which caused several Major Houses to rebel against and ultimately overthrow him.

Viserys the Beggar King never ascended to the Iron Throne. He was forced into exile after the murder of his father.

At this point, most viewers have at least a decent grasp of how the members of Westeros' major houses — Lannister, Targaryen, Baratheon, Stark, Tyrell — are related to each other.. It's a family tree of European royalty from Charlemagne to the new Prince George of Cambridge.. But as Game of Thrones fans experience the series' eighth and final season, it's important to understand the relationships that currently exist — or existed in the past but still bear significance — between the Seven Kingdoms' power players.
